Neuchâtel, July 29, 2008

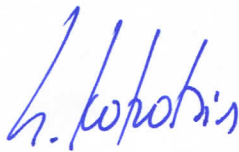

To whom it may concern

We have been in contact with Mr. Vuille of Acarsa, based in Neuchâtel.

We have been exposed to his plans and interests. We can confirm that the underwater mission aiming to identify and recover the Leigh-Smith ship can be of strong interest for testing CSEM technological platform.

Such cooperation can take the form of a pilot project provided technical, legal and financial modalities will be adequate defined.

Yours sincerely,

Georges Kotrotsios
Vice President Marketing & Business
Development

Mario El-Khoury
Vice President Systems
Engineering
